SUPPLEMENTARY INFORMATION:

*Title:* Self-Certification Medical Statement.

*OMB Control Number:* 0579-0196.

*Type of Request:* Revision to and extension of approval of an information collection.

*Abstract:* The Marketing and Regulatory Programs (MRP) of the U.S. Department of Agriculture facilitate the domestic and international marketing of U.S. agricultural products and protect the health of domestic animal and plant resources. Resource management and administrative services, including human resources management, for MRP agencies are provided by the MRP Business Services (MRPBS) unit of the Animal and Plant Health Inspection Service (APHIS).

MRP agencies are authorized by 5 CFR 339 and 29 CFR 1630 to obtain medical information from applicants and employees for positions that have approved medical standards due to duties that are arduous or hazardous, or require a certain level of health status or fitness. These agencies have positions with duties that extend beyond sedentary and require specific medical standards and/or physical requirements to be performed successfully and safely. The

medical qualifications standards for appointment to the covered positions listed in the MRP Medical Examination Requirements Charts are justified on the basis that the duties are arduous or hazardous and require a certain level of health status and fitness, and the nature of the positions involves a high degree of responsibility toward the public.

This information collection is necessary for making a preliminary determination regarding a candidate's physical fitness and ability to perform the duties of a covered position. MRP uses the Self-Certification Medical Statement for positions requiring verification of fitness and ability for duty. Applicants may also submit a request for waiver of standards and requirements. Inability to collect this information would adversely affect the MRP agencies' ability to make employment decisions and determinations regarding an applicant's physical fitness to safely and efficiently perform assigned duties.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

*Estimate of burden:* The public burden for this collection of information is estimated to average 0.167 hours per response.

*Respondents:* Private citizens.

*Estimated annual number of respondents:* 1,826.

*Estimated annual number of responses per respondent:* 1.

*Estimated annual number of responses:* 1,827.

*Estimated total annual burden on respondents:* 306 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 23rd day of October 2020 .

Mark Davidson,

Acting Administrator, Animal and Plant Health Inspection Service.
